Work Experience

Alta Software Tbilisi, Georgia Angular Developer March 2017 - Present

Independently developed Angular project which was admin panel for utility payments system.

- Developed end to end module to dynamically inject plugins in a larger system.
- Participated in Angular project which heavily used Rx, due to excel like semantics of a project.
- Organized weekly meetups about technologies relevant to the company.

Vidal Tbilisi, Georgia

Angular Developer

September 2016 - February 2017

- Migrated codebase from AngularJS to Angular, which signifiantly reduced code complexity.
- Migrated from Bootstrap to Angular Material.
- Used redux-like model, using actions and reducers.
- Updated admin panel to make frequently performed actions easier to access.

Google Zurich, Switzerland April 2016 - June 2016

Software Engineering Intern

• Integrated internal storage system with a processing system to make system more flexible to the clients.

- Worked with personal search infrastructure team developing command line tool for internal usage.
- Worked with multiple teams across different offices to coordinate changes in main configuration.
- Created a good foundation and a useful abstraction for future extension with other storage systems.

Vidal Tbilisi, Georgia

Angular JS Developer

February 2012 - March 2016

- Migrated from legacy jQuery admin panel to more flexible AngularJS framework.
- Created common components which resulted in 3x smaller codebase and more consistent user experience.
- Created small immutable file store which drastically reduced backup size due to incremental updates.
- Streamlined build tools to easily handle preprocessing, database migrations and easy deployment.

Education

Georgian Technical University

Tbilisi, Georgia

Master of Computer Science

2016 - Present

Expected Graduation: August 2018

Free University of Tbilisi (School of Mathematics and Computer Science)

Tbilisi, Georgia

Bachelor of Computing

2011 - 2016

Technical Skills

Languages: TypeScript, JavaScript, C#, Java

Interests: Angular, Rx, Functional Programming, Event Sourcing

Leisure

Hobbies: Swimming (Being Underwater), Podcasts (Hello Internet), Stand-up Comedy (Louis C.K.)
